

INTRODUCTION OF FORENSIC MEDICINE & TOXICOLOGY DEPARTMENT

About the Department:-

Goal

The course in Forensic Medicine aims at producing a physician who is well informed about medico legal responsibilities in practice of medicine. She/he will also be capable of making observations and inferring conclusions by logical deductions to set enquiries on the right track in criminal matters and connected medico legal problems. She/he acquires knowledge of law in relation to medical practice, medical negligence and respect for codes of medical ethics.

Objectives

Knowledge

At the end of the course, the student should be able to

- Identify the basic medico legal aspects of hospital and general practice.
- Define the medico legal responsibilities of a general physician while rendering community service either in a rural primary health centre or an urban health centre.
- Appreciate the physician's responsibilities in criminal matters and respect for the codes of medical ethics.
- Diagnose, manage and identify the legal aspects of common, acute and chronic poisonings.
- Describe the medico legal aspects and findings of post-mortem examination in case of death due to common unnatural conditions & poisonings.
- Detect occupational and environmental poisoning, prevention and epidemiology of common poisoning and their legal aspects particularly pertaining to Workmen's Compensation Act.
- Describe the general principles of analytical toxicology.

Skills

At the end of the course, the student should be able to

- Make observations and logical inferences in order to initiate enquiries in criminal matters and medico legal problems.
- Diagnose and treat common emergencies in poisoning and manage chronic toxicity.
- Make observations and interpret findings at postmortem examination.
- Observe the principles of medical ethics in the practice of his profession.

Integration

Department shall provide an integrated approach towards allied disciplines including Pathology, Radiology, Forensic Sciences and Hospital Administration, to impart training regarding medico legal responsibilities of physicians at every level of health care. Integration with relevant disciplines such as medicine and pharmacology will provide scientific basis of clinical toxicology.

STUDENT & STAFF FACILITIES AVAILABLE

- Facilities for Student:
 1. Well equipped lecture-cum-demonstration & seminar rooms.
 2. Well equipped mortuary to learn post-mortem examination,
 3. Human bone-sets
 4. Well equipped forensic medicine museum
 5. Specimens displayed on special racks in groups along with catalogues
- Facilities for Staff:
 1. Separate cabins for Professor, Associate Professors & Assistant Professors.
 2. Separate cabins for PG students
 3. Departmental Library
 4. Separate cabin for Administrative Office
 5. Computers with internet connections

COURSES OFFERED with intake capacity

Sr.No	NAME OF COURSE	INTAKE CAPACITY
1	M.B.B.S.	150 annually
2	M.D. (FORENSIC MEDICINE)	1 annually
2	DIPLOMA IN FORENSIC MEDICINE	1 annually

TEACHING AND LEARNING METHODS

Teaching Programme:-

A. Under graduate teaching:

- I. II MBBS Students :- About 150 students per year.
- II. Lectures:- in Forensic Pathology, Clinical Forensic Medicine & Forensic Toxicology – 3 lectures per week for 1st and 2nd term students.
- III. Practical: – in Forensic Pathology, Clinical Forensic Medicine & Forensic Toxicology – 3 days in a week. Revision lectures and practical for 3rd term students.
- IV. Autopsy Demonstration
- V. Court procedures: for interested students along with teachers.

B. Post graduate teaching:

The post graduate teaching and training programme for students consists of Autopsy techniques, recent advances in Forensic Medicine and Toxicology, Medicolegal case discussions and journal clubs as prescribed by MUHS, Nashik.

FACILITIES AND SPECIAL SERVICES OFFERED

1. Post Graduate (MD) and Under Graduate (MBBS) & interns training, Teaching
2. All MLC Post Mortems including exhumations.
3. Expert opinion to police/I.O, CID, etc.
4. Training to Medical officers & Police officers.
5. Expert opinion and assistance in Enquiry, Ethical and other Committees.
6. Issuing of Cause Death certificates and LIC form filling in Post Mortem cases.
7. Expert opinion in ante mortem medico-legal cases.
8. NHRC recognized centre for conducting autopsies related to violation of Human right cases for Aurangabad and surrounding 5 districts.
9. Medicolegal age estimation.
10. Examination of alleged accused in sexual offences.
11. Sample collection for DNA profiling.
12. The department has collaborations with Sports Authority of India (SAI) and various other regional and state level sporting bodies to establish age of sporting personnel.
13. Medicolegal Consultancy: to medical practitioners, lawyers and public as and when needed.

DEPARTMENTAL MUSEUM HIGHLIGHTS

- Well equipped and well arranged museum divided in various section like Poisons, Weapons, wet mounted specimens, Bones, X-ray films, Photographs, Wax models & Charts.
- Every year by adding the new specimens helps to increase the number of specimens.
- We also have 32 coloured catalogues which gives information about above mentioned articles.

Specimen

- About 129 mounted and 37 un-mounted wet specimen of different medicolegal importance available in department.

Poison

- More than 100 Poisons of different types are safely arranged in glass cupboards.
- Each poison has its own informative catalogue to help the student.

Weapons

- Different types of weapons arranged in glass cupboards.
- Their information is given in respective catalogue.

Bones

- Osteology, a separate section in museum having all bones of human skeleton of both sides.
- More than 150 bones are available in museum.

Charts & Slides

- There are 65 charts depicting various medico legal information.
- About 1000 slides of different medicolegal importance available in department.

X-Ray films & Photographs

- There is collection of more than 200 medico-legally important x- ray films & 148 photographs.

EQUIPMENTS & FACILITIES AVAILABLE AT MORTUARY

- Sufficient and Full filling MCI criteria to run Recognized UG and PG degree courses.
- Well equipped mortuary with 5 post mortem tables, illuminated magnifier, scrubber drier & Aerosol Disinfectant for fumigation.
- Doctors room with computer to issue computerized PM reports.
- Spacious Waiting hall having water cooler with purifier- for relatives of deceased.
- Cold Room facility to accommodate 25 dead bodies at a time.

LIST OF ESSENTIAL EQUIPMENTS

Sr. No.	Name of the instrument	Available
1	Organ weighing machine (Electronic)	1
2	Body weighing Machine	1
3	Steel tape roll	1
4	Vernier caliper (digital)	2
5	SS Autopsy Table (standard variety)	4
6	Autopsy styker saw with accessories	1
7	Bone dust collector	1
8	Hack saw	3
9	Dissection sets	2
10	Rib shears	1
11	Digital Camera SLR	1
12	Binocular research microscope	1
13	X - ray view box (2 in 1)	1
14	Stretcher trolley (SS made)	6
15	Water cooler with Aquaguard	1
16	Suction machine	2
17	Autopsy tissue processor (Histo-kinette)	1
18	Microtome with knife (Manual)	1
19	Hot Plate	1
20	Block making cassette Plastic	50
21	Slide warming table	1
22	Tissue Embedding mould SS	5
23	Slide warming cradle	1
24	Brain knife	4
25	Block holder	10
26	Glass cutting pencil	2
27	Refrigerator (180 litres)	1
28	Deep freezer (100 liters)	1
